

# Content Delivery Network

It's time your CDN did more. If reliability, speed, and the freedom to customize delivery is critical for you, then Fastly's CDN with real-time observability, programmatic control and baked-in security helps you deliver the dynamic experiences today's users.

## Deliver fast, personalized experiences globally

- ✓ Speed and Scalability
- ✓ Optimized and Cost-Effective Delivery
- ✓ Developer-First Approach

Fastly delivers more than just a CDN. Our modern architecture and infrastructure will improve the performance of your site, scale the impact of your DevOps and SecOps teams, and save you money all at the same time. Fastly gives you the control to serve more dynamic, personalized content and to accelerate your content delivery. Deliver your website, apps, video, downloads and more from a single, secure, high performing, global network and meet the demands of today's users in an efficient and cost effective way.

# 32%

## Faster time to first byte (TTFB) than other CDNs

### Speed and Scalability

Protect user engagement and boost SEO rankings with faster content delivery.

### Optimized and Cost-Effective Delivery

Efficiently optimize delivery workflows and reduce delivery Costs.

### Developer-First Approach

Empower technical teams with tools to enhance productivity and innovate faster.
